

Phakama Grain Phahama NPC

'SCHOOLS PROGRAMME'

FINAL REPORT TO THE MAIZE TRUST

1 OCTOBER 2024 TO 30 SEPTEMBER 2025

PRESENTED IN SEPTEMBER 2025

INTRODUCTION

With reduced land available for production, coupled to an increased demand for food, it is essential that we encourage young people to become interested and passionate about agriculture. We need motivated people to choose the sector as a career so that we can improve on all aspects and in so doing, feed the people of the world. It is generally appreciated that funding is limited, and although different alternative options were investigated on how to get the more agricultural related information to the schools, there is no more effective means than the physical presentations and interactive dialogue with learners. Unfortunately, we have found that unless we send someone to the school for a viewing of the DVD, the other school activities take priority and the 'focus on agriculture' takes a second place.

The number of children in schools is ever-increasing and the need to reach more children is great. Phahama Grain Phakama will endeavour to find additional donors to assist with the maintenance and expansion of this programme as we believe that it has great value.

Phahama Grain Phakama appreciate the continued financial support by the Maize Trust and will also further assist in obtaining more funding and additional benefits for donors through investing incentives such as tax benefits and BBBEE contributions.

Approved budget for **2024/2025**: R 600 000

Expenditure up to 31 August 2025:

Phahama Grain Phakama Management Accounts		
Financial Period: 1 October 2024 - 31 August 2025

8 TOTAL MT SCHOOLS INCOME		600 000
9 TOTAL MT SCHOOLS EXPENSES		- 621 589
10 TOTAL DEFICIT		- 21 589

AGRICULTURAL PRESENTATIONS AT THE SCHOOLS

- **PROJECT TITLE**

School Programme (Presentations)

- **TRUST DEED OBJECTIVES**

Market access in respect of the South African Maize industry

- **REASONS WHY IT IS DEEMED THAT THE PROJECT WILL CONTRIBUTE TO THE ABOVE OBJECTIVE.**

It is essential that we encourage children to be aware of the value of agriculture as a source of food and fibre, a major role player in the economy, as an employer, and as a career choice. More than half the population in Africa is under 20 years of age. Children are current consumers, consumers of the future, and the next generation of workers, and the sooner we can make them aware of the value of agriculture in general, and the maize industry in particular, the sooner we can hope to have them understand the importance thereof.

- **MAIN AIM OF THE PROJECT**

Identify at least 30 Primary Schools in each of the following provinces, the North-West, Free State, Eastern Cape, Limpopo, KZN and Mpumalanga. Phahama Grain Phakama will then identify suitable persons who can take the presentations to the Grade 5-7 learners of the various schools. They will be visited each quarter for the first three quarters of 2025. Should other donors be identified, the number of schools will be increased.

The presentations to be made at the schools will cover subjects such as: Food, Fibre and life; Agriculture – Dig in - what is it all about; The economy – what's in it for me?; our daily bread – the story of wheat; the soya bean – wonder food, careers with plants and careers with animals. The idea to expose young learners to the sector to influence their view of agriculture and to help them consider the different career options offered by the sector.

This has been achieved.

- **PROJECT DURATION**

1 October 2024 to 30 September 2025.

- **SECTORS IN THE MAIZE INDUSTRY THAT COULD OR SHOULD BENEFIT FROM THE PROJECT**

Indirectly, all sectors – producers, consumers and related industries.

- **SUMMARY OF THE TOTAL BUDGET RELATING TO THE PROJECT.**

R 600 000 (Including 7% management fees). The 7% Project Coordination and Management Fees will be secure for Phahama Grain Phakama regardless of the actual project expenditure. The actual project expenditure is not a full reflection of the project management and coordination cost.

PROJECT OBJECTIVES

- To identify suitable personnel (trainers) to do the presentations in the various regions. The schools targeted by the programme will be identified in the six regional areas serviced by the Phahama Grain Phakama's Farmer Development Programme personnel.

- To identify 180 schools to take part in the programme.
- To visit the schools once a quarter for each of the first three quarters of the academic year and present agricultural sector related content followed by a discussion to the Grade 5,6 or 7 learners.

CHALLENGES AND WAY FORWARD

- The school's program under the new direction as applied for in 2023, to visit Grade 5 to 7 learners instead of Grade 9 learners is now in motion and the feedback from facilitators has been positive.
- We are however experiencing challenges with technological equipment such as laptops, projectors and sound systems. Some of the facilitators are using old second-hand laptops which are slow and outdated and prolonging the process of getting the work done.

Schools visited to date

Province	Number of schools
Eastern Cape	32
Free State	69
Kwa Zulu-Natal	30
Limpopo	37
Mpumalanga	78
North West	30
	276

The learners and the facilitators at the schools received the DVD's very well. The comments from the learners shown later in this report speak of the lessons that are being learned. In each annual intake at the schools, more than one million learners are registered – this gives an indication of the vast number of learners that could be reached each year. Agriculture remains one of the most important sectors of our economy and by exposing learners to it at an early stage is of benefit to all.

There are often requests from the schools for assistance with the establishment of food gardens at schools, and although this is a great idea, it is not within the scope of this project to be able to do that. We hope that in the biology and agricultural classes that the learners will be exposed to more about plants and animals.

Feedback received from learners :

Was the visit of any value to you?
We learned about agricultural careers and how they are need in agriculture. We learned that how things are processed from raw materials to secondary product we learned about another careers that we didn't know in agricultural careers. This will help us in our future. Example: sugar cane, honey, sun flower, corn and animal skins (leather), this help us in our future to know the job opportunities like the game farmer, Engineerings and GIS.

Was the visit of any value to you? Yes
Today we learnt about food and fibre. Today we learnt that cotton comes from plants and animals. Some animals produce wool. We learnt that cooking oil comes from sunflowers when they are dry. Silk worms can make pyjamas and curtains. Cocoa beans can make coffee and chocolate.

Feedback by School Learner:

Was the visit of any value to you?
Yes, it was valuable because I have learnt that a free culture it gives me food and clothes that I wear and I learnt that Farming is very important when you have your own Farming and know where it comes from and farm for your own.

Was the visit of any value to you?

yes, Because I learned about agriculture
That agriculture is our need and our future
Without agriculture we will be in trouble
and wear ~~the~~ wear agriculture we eat
agriculture and we live agriculture and
agriculture is practices of farming.
And I get food from agriculture

Was the visit of any value to you?

The yes, The visit was valuable for me
And I was happy when we stated the video.
and I also like farming if I was older I would
join Grain SA, And ~~at~~ Agriculture help us
with life if we didn't have agri-culture
we would be no were today we need food
and clothes, products and materials to make
clothes, Sub-sistence farming and commercial
farming are all the best. I just want to be older
to join farming, At home I planted a peach
tree now its getting taller than our back room
and I appreciate my self.

Thank you for coming.

Feedback by School Learner:

Was the visit of any value to you?

Yes, because we learnt about Food and Fibre. We also learnt that 90% of food come from plants, and 10% comes from animals. We cannot survive without plant and animals because we depend on them to get life. We learnt that cotton comes from trees and can also make jeans. Sunflower provides us with cooking oil. Our clothes comes from animals and plants. The sugar cane from Mpumalanga and Kwa Zulu Natal gives us sugar. And we as Zamani Primary School we would like to give Grain S.A a special thanks for building our knowledge further about agriculture.

Was the visit of any value to you?

Yes it was valuable to me because I learnt that agriculture has two types of farming commercial farming and sub-sistence farming. And that there is two types of maize and clothes to wear. That sugar comes from sugarcane. Under agriculture maize is the one that makes Maizemeal. Wheat makes flour to give us bread and we use flour for baking. We also get Pasta and Macaroni from wheat. Agriculture contribute to our economy by job creation and production of materials and products we use everyday to sustain ~~it~~ us.
